

## **NATA Membership Bulletin- October 2021- Special All Member Invite**

### **Regulatory Update- Friday, October 29, 2021-3PM Eastern**

When the government of Canada announced that all passengers need to be vaccinated in order to travel, as well all employees need to be vaccinated, NATA immediately began consulting with members and providing operational concerns to the government.

Finally, on October 10, 2021, Transport Canada released the” Mandatory COVID-19 vaccination requirements for federally regulated transportation employees and travelers. These documents are posted on the NATA website or available on request. It is prudent to facilitate an opportunity for NATA members to participate in an important discussion regarding these new requirements.

Along with the very challenging federal COVID response and travel policy, NATA has been involved in an array of other regulatory initiatives. Please refer to [natacanada.org](http://natacanada.org) for a list of initiatives underway that NATA is providing input.

The time is right to provide NATA members with an important update on issues affecting northern and remote aviation.

### **Regulatory Update- Friday, October 29-2021- 3PM Eastern**

Please join my meeting from your computer, tablet or smartphone.
